

Testimony presented at the Feb. 3, 2011 hearing concerning HB 128 by Jeanette Zentgraf:

Please oppose this bill which begins aspects of the new federal health policy, before 2014 in fact by 2011.

New York already passed a bill similar to HB 128 and as a result our NY State pension was reduced by \$2,100., due to an increase in the cost of our insurance. Starting in Jan. NY state insurance must cover people with pre-conditions and must provide preventive immunization against STD's for our little girls.

I pray that Montana succeeds at stopping the federal policy altogether, but to permit this incremental costly support would be wrong. Please vote against this bill.
